

WRAP

At Wrap, we are focused on saving lives. We do this by leading the industry and empowering public safety with innovative training and tools to take individuals safely into custody without having to use force with the non pain compliant remote restraint Bola Wrap 150 while reducing the risk of injury to individuals and to officers.

Safer Policing Outcomes
Through Innovative Technology

WHY?

BOLA WRAP₁₅₀

Prevents the need for higher levels of force

When deployed early, BolaWrap can prevent escalation and effectively diminish, if not completely eliminate, the need for pain-inducing use of force.

Reduces injury to citizens and law enforcement

Designed with a no-harm guiding principle, BolaWrap empowers officers to safely restrain individuals from a secure distance, mitigating the risk of injuries to both parties.

Drives the message of prioritizing safety

Incorporating BolaWrap into an agency's toolkit demonstrates proactive measures to mitigate risk and promote community safety, thereby helping those in need in a more humane way and avoiding public outrage.

BOLA WRAP₁₅₀

Safer Policing Outcomes

Easy to operate

Training and use of the device can be learned in a few short hours.

Restraint happens at a distance

Temporarily restrains an individual from 10 to 25 feet.

Doesn't rely on pain compliance

Does not use chemicals, electricity, or other harmful deterrents that cause pain.

Reduces the risk of higher levels of force

Because BolaWrap isn't designed to cause pain, it may be used during the first stages of an encounter before escalation takes place.

Buys officers time

Creates a window of opportunity to safely advance and detain or get help for individuals.

Can distract, confuse or compel compliance

The combination of the loud sound and rapid cord deployment can distract an individual or encourage compliance.

Provides humane remote restraint

The device restrains without injury in situations where reasoning and verbal commands have failed, or are likely to fail.

"I see this as one of the great tools if you encounter someone with a mental health crisis."

Chief Steve Casstevens, Buffalo Grove Police Department

BOLA WRAP 150

CASSETTE

Electronically deployed and powered by microgas generators. Reloadable in 2-6 second.

TETHER

The 7.5-foot Kevlar cord can wrap around an individual - whether still or moving - at a range of 10-25 feet.

ANCHORS

High-tech MIM with integrated anchor safety caps lower the risk of piercing the skin for both the officer and the individual. Delayed offset deployment of the tether anchors provides an optimal flight path.

BOLAWRAP 150

Small and light, a simple two-step process of turning on the power switch and pressing the activation button to deploy when the laser is on target is optimal for officer reaction time.

MULTI-DOT LASER

The multi-dot green laser array is easy to aim and align.

LED ILLUMINATOR

Dual LED flashlight feature automatically illuminates when the device is powered on, freeing up an officer's hands when responding at night.

BATTERY

A long battery life with an included replaceable battery pack and LED indicator for device status check provides years of standard operation.

BOLA WRAP₁₅₀

WRAP | Guarantee

If your department doesn't experience a reduction in use of force of at least 10%, we'll buy back your devices - Guaranteed

Our Guarantee – Implement BolaWrap® agency-wide and if your agency's use-of-force numbers do not go down at least 10% (or are "reduced") in 1 year post full deployment, Wrap Technologies, Inc. ("Wrap") will purchase the devices back. Conditions: Limited time offer. Only available to new customers making an initial purchase of BolaWrap® that do not have an existing relationship with Wrap or its subsidiaries. Agency must fully deploy BolaWrap® across its in-field officers. Deployment equates to the initial purchase of a device, holster, and 12 cassettes per in-field officer in agency plus training and certification by a Wrap certified instructor. Agency must NOT designate BolaWrap® as a use-of-force. BolaWrap® must be carried on the body by all in-field officers at all times while on duty for 12 months following the initial full deployment. All in-field officers must be trained and certified by a BolaWrap® certified instructor. Agency must provide regular confidential reporting of BolaWrap® uses and trainings to Wrap. When possible and permissible by agency policy, Body Worn Camera video must be provided by agency in regular reporting to Wrap. Agency must report all BolaWrap® deployments. Agency's BolaWrap® definition of success must adhere to Wrap's success guidelines. Reduction in Use of Force Guarantee determined after 12 consecutive months of full deployment (post training and certification of all in-field officers). Guarantee only applicable if all conditions have been met or otherwise waived by Wrap's CEO in writing.
